Education

PES University **Bengaluru**
B Tech in Computer Science and Engineering *2022 - 2026*

- Achieved a CGPA of 9.90 in Computer Science and Engineering.
- Awarded the Prof. MRD Merit Scholarship for academic excellence.

RV PU College **Bengaluru**
PUC *2020 - 2022*

- Secured a percentage of 95.833 in PUC.

Technical Skills

Languages: Java, Python, C/C++, Go, HTML, CSS, JavaScript, TypeScript, Bash
Frameworks: React JS, Node JS, Express JS, Fast API, Spring Boot, Next JS, Tailwind CSS
Technologies: Docker, Kubernetes, SQL, NoSQL, REST, RAG, Linux
Big Data: Hadoop, Kafka, Spark, Mongo DB
Tools & DevOps: Git, GitHub, Postman, VS Code, IntelliJ
Machine Learning: Scikit-learn, Pandas, Matplotlib, LangChain

Experience

SAP Labs India **June 2025 - July 2025**
SAP iXp Intern *Bengaluru*

- Engineered a **real-time** holographic assistant utilizing Retrieval-Augmented Generation (RAG) framework, enabling voice-activated question answering, and enhanced audience engagement by 65% during live event interactions.
- Optimized system performance, **reducing response latency by 30%** through LangChain integration with custom inference APIs.

Center for Information Security, Forensics and Cyber Resilience **June 2024 - July 2024**
Research Intern *Bengaluru*

- Detected Docker Container Escape Attacks by analysing more than 10 system calls with a **demonstrated 95.10% accuracy**.
- Developed a script that automates the extraction and **analysis of container logs and system calls**, significantly improving forensic investigation efficiency.

CSE Department, PESU **January 2024 - May 2024**
Teaching Assistant for C Programming *Bengaluru*

- Facilitated **learning for 100+ students** in C programming by preparing 15+ comprehensive lab assignments and quizzes.

Projects

TagMyPic | *Spring Boot, FastAPI, EasyOCR, Docker, Kafka, Azure* | GitHub

- Designed and deployed a **distributed image search system** using OCR and sentiment analysis.
- Enabled **real-time** querying over 1000+ user-uploaded images, enhancing search capabilities.

Chaos Testing Framework | *Spring Boot, Docker, Mongo.DB, Grafana, Prometheus* | GitHub

- Engineered a robust chaos testing framework to **inject 4 types of faults** and validate microservice resilience.
- Implemented **live monitoring of metrics** through Prometheus and Grafana, providing real-time insights.

Location Based Attendance System | *Golang, MySQL, Next JS* | GitHub

- Integrated **geofencing** and browser APIs to develop a precise location-based attendance system.
- Achieved **accurate location capture within 20 meters** and reduced proxy check-ins by 90%, improving data integrity.

Achievements

LeetCode: Contest rating of 1789 and solved 1000+ problems on Leetcode.
Capture The Flag: Actively participated in 3+ CTFs and consistently placed in the top 10, demonstrating strong problem-solving and security skills.
